EXPERIENCE

- Web Development Intern, Rams Creative Technologies Pvt Ltd.**  06/2025 – 07/2025
Jaipur, Rajasthan, India (On-Site)
- Engineered responsive front-end interfaces using React.js and Bootstrap, ensuring cross-platform compatibility and seamless user experiences.
 - Contributed to the development of dynamic web applications by integrating Node.js backend services and RESTful APIs, facilitating efficient data flow.
 - Collaborated with a cross-functional team in an agile environment, participating in the full software development lifecycle (SDLC) for client-facing projects in sectors like retail and manufacturing.
- Summer Research Intern (IITGN), Indian Institute of Technology Gandhinagar** 05/2026 – 07/2026
Gandhinagar, Gujarat (On-Site)
- Project focus:** Benchmarking and Fine-Tuning Efficient Distillation Frameworks for Generative Image Super-Resolution.
- Tech Stack & Tools:** Python, PyTorch, LoRA, PEFT, LPIPS, NIQE.
 - Core Achievement:** Built an end-to-end local pipeline to fine-tune distilled, few-step generative models. Successfully bypassed traditional full-parameter training instability, achieving optimal image super-resolution by tuning adaptation ranks and systematically analyzing the speed-to-quality breaking point.

EDUCATION

- B.Tech. in Computer Science, Vellore Institute of Technology, Vellore**  07/2024 – 2028
Current CGPA: 8.79
- Jayshree Periwai School, Jaipur (CBSE Board)**  04/2024
- 12th Board Exam - 90.6%
10th Board Exam - 91.6%

Projects

- Zeed (Image Sorting Tool), Python, PyQt6, PyInstaller**
- Developed a desktop photo-culling utility that handles high-resolution imagery with near-zero latency via multi-threaded processing.
 - Built custom memory management features, including a background pre-loading queue and an adjustable input throttler to ensure responsive, human-readable flow.

SKILLS

Languages

C/C++, Python, JavaScript, Java, SQL, Assembly

Tools

Git/GitHub, Docker, Linux, VS Code, Figma, Canva, CUDA, Python venv

AI/ML Concepts

Generative AI, Latent Diffusion Models, PEFT / LoRA Fine-Tuning, Image Super-Resolution

Web Development

HTML5, CSS3, React.js, TypeScript, PostgreSQL, MySQL

Libraries/Frameworks

NumPy, Pandas, OpenCV, TensorFlow, PyTorch, Hugging Face (Diffusers, PEFT), scikit-image, bitsandbytes

Spoken Languages

English (Fluent), Hindi (Fluent), French (DELF A2), Japanese (Basic)

Coursework

Data Structures & Algorithms | Design & Analysis of Algorithms | Object-Oriented Programming | Web Programming | Computer Architecture & Organization | Theory of Computation | Operating Systems | Compiler Design | Computer Networks | Artificial Intelligence | Cloud Architecture Design | Database Systems
